

Dear Parents,

With great pleasure, we would like to introduce you to a unique opportunity which has been made available for your children. In cooperation with your diocese, The Culture Project International has been invited into your parish. The Culture Project is an initiative of young people set out to restore culture through the experience of virtue. In this missionary community, young adults from around the country commit to proclaiming the dignity of the human person, and the richness of living sexual integrity. Our speakers are trained by faithful experts in the fields of medicine, psychology, philosophy, and theology. Thus, they are equipped to discuss these important topics with knowledge and understanding, while maintaining the utmost respect for the sensitivity of your children.

Your parish has invited our speakers to share our Human Dignity presentation. This presentation is outlined below.

Human Dignity

Speakers use stories, analogies, natural law, and scientific evidence to increase students' understanding of human dignity - the innate value which sets human beings apart from the rest of creation. Students will learn facts about the importance and uniqueness of every person, and will hear stories of men and women who heroically stood against abuses of this dignity. Speakers address these violations from our past, including slavery and the Holocaust, and from our present, including abortion, human trafficking, and pornography. These tragedies against the human person are discussed with great delicacy and an emphasis on mercy, healing, hope, and forgiveness. Students are empowered and encouraged to join missionaries in making a positive difference in the world, beginning with choices to love and respect their own families, friends, and acquaintances. There are no graphic images or descriptions in this presentation.

We at The Culture Project consider our presentations to be "tools in the toolbelt" for you, the parents who so deeply and heroically love your children. We are honored to share with you in this mission, and we look forward to working together to inspire young people and encourage them to live the lives of greatness and fulfillment for which they are made.
